SECURITY AREA

← 730 →

The carousel H511 is an inclusive game, conceived with a space suitable for wheelchair users and also for able-bodied passengers.

Once on deck, the wheelchair must be blocked with proper brakes. The rotation of the carousel must take place by having an able-bodied operator inside the game. For this product the presence of an area supervisor is mandatory, this to avoid the improper use of the structure and / or its damage.

Make a proper security surface according to CFH. Periodic maintenance is mandatory, following manual supplied to customer.
